The Basket Shop was started in 1939. It was located in what was then called the Hudson Terminal Market. When work started on the World Trade Center, the store moved two blocks away to Barclay Street. That was our home for the next 38 years.

During those wonderful years we built relationships with thousands of customers. We've since moved out to Long Island and our gift

basket business continues to thrive because of the strong relationships that we have cultivated.

When you use our services for gifts, we are able to draw on our experience and deliver the perfect arrangement for your special occasion.

We have the capacity to prepare hundreds of baskets or just that one special basket with equal care and prompt delivery.

We look forward to having the opportunity to develop the same special relationship with you as we have with our other customers.
